

DevOps Engineer (m/f/d)

Location: Berlin , Germany | Fulltime | Onsite

Your Challenge

- Manage our Kubernetes based cloud systems
- Support the development and project teams to adapt our infrastructure
- Be Responsible for the availability, quality and future readiness of system backbones
- Help to bridge cloud technology with solutions in locked-down environments
- Train and Communicate the approaches for building a solid company-wide technology base

Your Profile

- Degree in IT or equivalent graduation with several years of professional experience
- Hand-on experiences with Kubernetes, Docker, Ansible, Terraform, Linux
- Experience in programming, shell scripting, e. g. Python
- General understanding of MongoDB, PostgreSQL, RabbitMQ, Redis
- You see yourself as part of the team, but are also able to work independently and solution-oriented on problems
- Strong personal and communication skills

Your Benefit

- Unique team spirit and friendly corporate culture
- Plenty of room for personal growth and responsibility that enables you to grow with SWARCO
- The opportunity to work in a modern, international technology environment
- Flexible working hours
- Food allowance, fruits, coffee, tea, soft drinks, sweets
- Employee events
- Health promotion

The future begins today. Yours too?
